On contact with eves Wash affected eyes for at least 15 minutes under

running water with eyelids held open.

On skin contact Wash thoroughly with soap and water.

If difficulties occur after vapour/aerosol has been inhaled

remove to fresh air and seek medical attention.

On Ingestion Rinse mouth and then drink water (two glasses at the

most). Consult doctor if feeling unwell.

Note to physician Symptomatic treatment (decontamination, vital functions),

no known specific antidote.

5. Fire fighting measures

Suitable extinguishing media: Water spray, alcohol resistant foam, dry

extinguishers, carbon dioxide (CO₂)

Specific hazards Evolution of fumes/fog. The substances/group of

substances mentioned can be released in case of

fire.

Vapours heavier than air.

Special protective equipment In case of fire, wear a self-contained breathing

apparatus.

Further Information The degree of risk is governed by the burning

substance and the fire conditions. Contaminated extinguishing water must be disposed according to

official regulations.

6. Accidental release measures

Personal precautions: Use personal protective clothing.

Do not inhale vapors/aerosol.

Environmental precautions: Do not discharge into drains, surface

waters, ground water.

Methods for cleaning up/taking up: <u>Large amount</u>: Pump off products.

<u>Residues/spills:</u> Bind the liquid by using a suitable absorbent material and dispose it

according to the regulations.

Revision date: 19-05-16 2 of 10

7. Handling and storage

Handling Ensure thorough ventilation of stores and working areas.

Protection againstTake precautionary measures against static discharges. If **fire and explosion**.

exposed to fire, keep containers cool by spraying with

water.

Storage Product is hygroscopic. Containers should be stored

tightly sealed in dry place. Since zinc is not compatible with propylene glycol, storage in galvanized containers is

not recommended.

8. Exposure controls and personal protection

General safety and hygiene measures: Wash hands and forearms after handling.

Do not smoke, eat or drink during

manipulations.

Personal protective equipment:

Respiratory protection: Only in case of release of fumes/fog. Well ventilated areas

are recommended for manipulation.

Required when vapors/aerosols are generated. Filter A-

(P2)

Hands: Chemical resistant protective gloves are recommended.

Eyes: Safety glasses with side-shields.
