Label elements.

Label according to Regulation (CE)N° 1272/2008 [CLP]

The product is not subject to labeling.

Other hazards.

Unknown.

3. Composition/Information on ingredients.

Corrosion inhibitors in aqueous solution.

Chemical name	CAS-No	EC number	%	Pict.	Phrases
Potassium Salt	64665-53-8	265-002-8	<3%	GHS06	H301; H319
Methyl Benzotriazole					H332; H412

4. First aid measures.

General advice	Remove contaminated clothing.
On contact with eyes	Wash affected eyes for at least 15 minutes under running water with eyelids held open.
On skin contact	Wash thoroughly with soap and water.
If inhaled	If difficulties occur after mist/aerosol has been inhaled remove to fresh air and seek medical attention.
On ingestion	Rinse mouth and then drink water (two glasses at the most). Consult doctor if feeling unwell.
Note to physician	Symptomatic treatment (decontamination, vital functions), no known specific antidote.

5. Fire fighting measures.

Suitable extinguishing media:	Water spray, alcohol resistant foam, dry extinguishers, carbon dioxide (CO ₂)
Specific hazards	Evolution of fumes/fog. Vapours heavier than air.
Special protective equipment	In case of fire, wear a self contained breathing apparatus.
Further information	Contaminated extinguishing water must be disposed according to official regulations.

6. Accidental release measures.

Personal precautions	Use personal protective clothing. Do not inhale vapours/aerosol.
Environmental precautions	Do not discharge into drains, surface waters, ground water.
Methods for cleaning up/taking up	<u>Large amount:</u> Pump off products. <u>Residues/spills:</u> Bind the liquid by using a suitable absorbent material and dispose it according to the regulations

7. Handling and storage.

Handling	Ensure thorough ventilation of stores and working areas.
Protection against fire and explosion	Take precautionary measures against static discharges. If exposed to fire, keep containers cool by spraying with water.
Storage	Containers should be stored tightly sealed in dry place. Since zinc is not compatible with ethylene glycol, storage in galvanized containers is not recommended.

8. Exposure controls and personal protection.

Hygiene measures:

Wash hands and forearms after handling.
Do not smoke, eat or drink during manipulations.

General safety measures:

Respiratory protection:

Only in case of release of fumes/fog. Well ventilated areas are recommended for manipulation.

Required when vapours/aerosols are generated. Filter A-(P2)

Hands:

Chemical resistant protective gloves are recommended.

Eyes:

Safety glasses with side-shields.
