4. First aid measures

General advice Remove contaminated clothing.

On contact with eyes	Wash affected eyes for at least 15 minutes under running water with eyelids held open.
On skin contact	Wash thoroughly with soap and water.
If inhaled	If difficulties occur after vapour/aerosol has been inhaled remove to fresh air and seek medical attention.
On Ingestion	Rinse mouth and then drink water (two glasses at the most). Consult doctor if feeling unwell.
Note to physician	Symptomatic treatment (decontamination, vital functions), no known specific antidote.

5. Fire fighting measures

Suitable extinguishing media:	Water spray, alcohol resistant foam, dry extinguishers, carbon dioxide (CO ₂)
Specific hazards	Evolution of fumes/fog. The substances/group of substances mentioned can be released in case of fire. Vapours heavier than air.
Special protective equipment	In case of fire, wear a self contained breathing apparatus.
Further Information	The degree of risk is governed by the burning substance and the fire conditions. Contaminated extinguishing water must be disposed according to official regulations.

6. Accidental release measures

Personal precautions:	Use personal protective clothing. Do not inhale vapors/aerosol.
Environmental precautions:	Do not discharge into drains, surface waters, ground water.
Methods for cleaning up/taking up:	<u>Large amount:</u> Pump off products. <u>Residues/spills:</u> Bind the liquid by using a suitable absorbent material and dispose it according to the regulations.

7. Handling and storage

Handling	Ensure thorough ventilation of stores and working areas.
Protection against fire and explosion.	Take precautionary measures against static discharges. If exposed to fire, keep containers cool by spraying with water.
Storage	Product is hygroscopic. Containers should be stored tightly sealed in dry place. Since zinc is not compatible with propylene glycol, storage in galvanized containers is not recommended.

8. Exposure controls and personal protection

General safety and hygiene measures: Wash hands and forearms after handling.
Do not smoke, eat or drink during manipulations.

Personal protective equipment:

Respiratory protection: Only in case of release of fumes/fog. Well ventilated areas are recommended for manipulation.
Required when vapors/aerosols are generated. Filter A-(P2)

Hands: Chemical resistant protective gloves are recommended.

Eyes: Safety glasses with side-shields.
